## About me

I am a **final year PhD student at the University of Oxford**, studying the neural mechanisms of economic decision-making and learning in humans.

Working in academia has provided a stimulating environment to motivate learning. My aim is to take my expertise to the real world, while maintaining that **drive to learn**.

## Skills

- Data analysis: behavioural and neural (EEG)
- Computational modelling of behaviour
- Dimensionality reduction
- Similarity analysis
- Data visualisation
- Project management
- Jupyter notebooks

## Languages

Matlab	●●●●●
R	●●●○○
Python	●●●○○
HTML	●○○○○
CSS	●○○○○
SQL	●○○○○
Dutch	●●●●●
English	●●●●●
French	●●●○○
German	●○○○○

## Education

Oct 2016 - present	●	DPhil Experimental Psychology (Summerfield lab) Department of Experimental Psychology <b>University of Oxford</b>
Jan 2016 - June 2016	●	Research Internship Brain Decision Modelling lab Department of Psychology <b>University of Cambridge</b>
July 2015 - Dec 2015	●	Research Assistant Summerfield lab Department of Experimental Psychology <b>University of Oxford</b>
Sep 2013 - July 2015	●	MSc Experimental and Theoretical Psychology Faculty of Psychology and Educational Sciences <b>University of Ghent</b>
		Research Internship Summerfield lab Department of Experimental Psychology <b>University of Oxford</b>
Sep 2010 - July 2013	●	BSc Psychology, Faculty of Psychology and Educational Sciences <b>University of Ghent</b>
